ABOUT COMPANY

Kar Parivartan LLP is a professional regulatory compliance and waste management consulting firm delivering end-to-end compliance and Integrated Extended Producer Responsibility (EPR) solutions to businesses across India. We work closely with manufacturers, importers, brand owners, and corporations to help them meet and sustain their statutory obligations under evolving environmental and product-specific regulatory frameworks.

Our expertise spans E-Waste, Plastic Waste, Battery Waste, Tyre Waste, Used Oil / Waste Oil, and End-of-Life Vehicles (ELV), covering the complete EPR lifecycle—from registration and target assessment to recycler onboarding, credit sourcing and transfer, portal filings, audit readiness, and statutory reporting. With deep domain expertise and a structured, process-driven approach, Kar Parivartan enables organizations to navigate complex compliance requirements seamlessly—transforming regulatory responsibility into operational efficiency, risk mitigation, and circular economy value creation.

With a strong focus on accuracy, transparency, and timely execution, Kar Parivartan serves as a trusted compliance partner, ensuring CPCB-aligned, audit-ready compliance while enabling clients to remain focused on their core business growth and sustainability objectives.

VISION & MISSION

Our Vision:

To become India's most trusted partner for ERP compliance and circular economy solutions.

Our Mission:

To simplify EPR regulatory compliance, enable sustainable waste management, and empower businesses to adopt circular practices across all waste categories.

OUR CORE SERVICES

1. Integrated EPR Compliance & Advisory

We provide comprehensive EPR compliance solutions tailored to evolving regulatory requirements. Our services include

- EPR registration & compliance roadmap
- Target planning and strategy formulation
- CPCB/SPCB portal handling & documentation
- Annual return filing & regulatory reporting
- Legal advisory & compliance risk mitigation

We ensure that producers, importers, and brand owners meet statutory obligations with clarity and confidence.

• eWaste • Tyre • Battery • Plastic • Used Oil • ELV

2. Recycler Due Diligence & Audit

Selecting the right recycler is critical to ensure regulatory compliance and environmental integrity. Kar Parivartan conducts rigorous recycler due diligence and audits to validate

- Authorization and certifications
- Processing capacity and technology
- Regulatory adherence and traceability
- Documentation and reporting systems

Our structured audit framework ensures that your compliance ecosystem is reliable, transparent, and defensible.

eWaste · Tyre · Battery · Plastic · Used Oil · ELV

3. Waste Collection & Logistics Coordination

We coordinate end-to-end waste collection and logistics to ensure seamless movement of waste to authorized facilities. Our solutions include Nationwide collection network coordination

- Aggregator and transporter onboarding
- Traceability and documentation support
- Compliance-linked logistics planning

We simplify the operational complexities of waste movement while maintaining full regulatory alignment.

eWaste · Tyre · Battery · Plastic · Used Oil · ELV

4. Awareness as a Service (AaaS)

Regulatory compliance also requires awareness among stakeholders. Our Awareness as a Service (AaaS) programs are designed to

- Educate internal teams, partners, and consumers
- Support EPR awareness campaign requirements
- Deliver structured training modules & content
- Provide campaign reporting & documentation for compliance

We help organizations build a culture of sustainability and regulatory responsibility.

• eWaste • Tyre • Battery • Plastic • Used Oil • ELV

5. Circularity as a Service (CaaS)

Kar Parivartan enables businesses to move beyond compliance and adopt circular economy practices. Our Circularity as a Service covers

- Circular strategy design and implementation
- Resource recovery and recycling optimization
- ESG and sustainability integration support
- Impact measurement and reporting

Helping businesses build resilient, resource-efficient, and sustainability-driven growth models.

· eWaste · Tyre · Battery · Plastic · Used Oil · ELV

6. BIS & LMPC Certification Services (ISI, CRS, FMCS & LMPC)

Ensuring regulatory approvals before market entry is essential for smooth business operations in India.

Kar Parivartan provides end-to-end support for BIS certifications — ISI, CRS, FMCS — along with LMPC registration for importers and manufacturers.

OUR SERVICES INCLUDE:

- ✓ Product applicability assessment and standard identification
- ✓ Documentation support and application filing
- ✓ Coordination with BIS authorities and laboratories
- ✓ Assistance during inspection and audit processes
- ✓ Post-approval compliance and renewal support

Our structured approach ensures timely approvals, regulatory clarity, and uninterrupted market access with reduced compliance risks.

We Work Across All Regulated Waste Categories, Including:

e-Waste

Management and compliance support for discarded electrical and electronic equipment under EPR regulations.

Plastic Waste

End-to-end compliance solutions for collection, recycling, and reporting of waste batteries.

Battery Waste

EPR facilitation and traceable recycling support for end-of-life tyres.

Tyre Waste

Structured compliance and certificate management for plastic packaging and related obligations.

Used Oil

Regulatory assistance for environmentally sound collection and re-refining of used oil.

End-of-Life Vehicles (ELV)

Compliance support for dismantling, recycling, and material recovery of scrapped vehicles.

WHY CHOOSE KAR PARIVARTAN

01 Assessment:

Detailed compliance gap analysis with complete mapping of applicable regulatory requirements.

02 Strategy:

Development of a customized compliance and circularity roadmap aligned with business goals.

03 Execution:

End-to-end implementation including portal management, documentation, recycler onboarding, and logistics coordination.

04 Monitoring:

Continuous compliance tracking, performance review, and regulatory reporting.

05 Circular Economy Focus:

Integration of circular economy principles to enhance resource efficiency, recyclability, and long-term sustainability impact.
